Inmate Message Below

Warden Hendrix,

Please accept this memorandum as my formal request to be granted home confinement as authorized under the FIRST STEP ACT and the CARES ACT. Accordingly, this request is made to exhaust the 30 day notification to you to evaluate my eligibility using the risk assessment analysis and PATTERN score along with my prison programming history. I am particularly susceptible to contracting the COVID-19 virus as I have medical conditions which the Centers for Disease Control (CDC) has identified as high-risk. These conditions include: I am 62 years old, have high blood pressure, prostate enlargement, and have a family history of diabetes and heart attacks. I fear that under the current conditions of confinement, I will contract the deadly virus from which I will be unable to recover due to my high-risk factors. Recently, the CARES ACT under section 12003(c)(2) has authorized the Attorney General to utilize this program when the COVID-19 virus seriously affects the operations of the Bureau of Prisons. It has. I am housed in a Unit where at least 8 persons have been taken out with symptoms of the virus and I am unable to maintain proper social distancing from others, there are only several sinks, toilets, urinals, and showers available for the community of over 100 inmates of whom I am unable to avoid. Thank you for your prompt attention to this important matter. I look forward to hearing from you soon.
